

Introducing...

Service Tracker™

Real-time Asset Management

Service Tracker™ was developed in-house. As a result, we can tailor the site to the needs of you our customer. We've been in the industry for over 20 years and therefore have the inside track!

A real-time equipment tracking system will benefit your company in several ways.

www.airongroup.ca

Benefits:

Here are a few of the most common benefits immediately experienced by customers:

Improved Cost Analysis

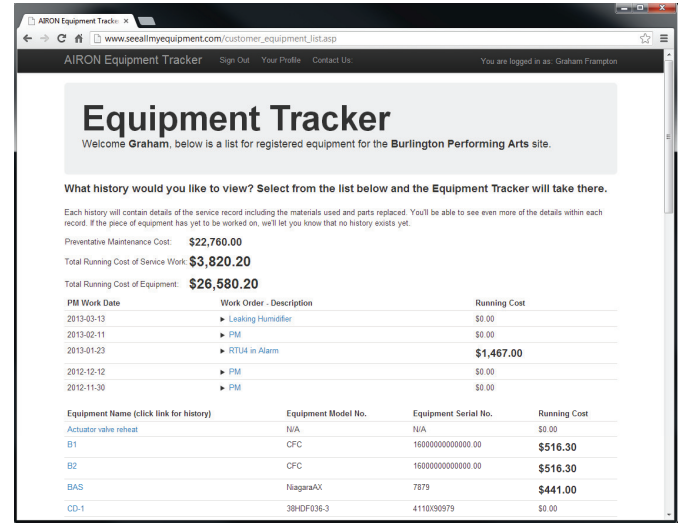

Having on-going costs of equipment at your fingertips ensures problem equipment can be identified immediately.

Better Troubleshooting

Easy access to equipment history confirms technicians have all the important information at their disposal. This makes resolution times significantly faster!

Extend the Life of your Equipment

Technicians easily verify work done on each piece of equipment. Nothing falls through the cracks.

Customers can see all equipment costs on a simple/clean interface.

Improved Customer Service

ServiceTracker™ gives you full access to all the data. All work history is visible all the time.

Greater Technician Productivity

Knowing the unit model number, history and parts enables technicians to work more efficiently, costing you less.

Mobile Access

Technicians can read, edit and record equipment information anywhere and anytime!

We designed the Service Tracker™ with mobile in mind. Technicians can scan the QR code and be taken immediately to the web site where entering information is simple and fast!
